Arvada, CO 80002
720-898-4800

The focus of my practice is treating trauma: sexual abuse, domestic violence, PTSD, and violent crime, I work with children, adolescents and adults. I utilize a variety of therapies including Neurofeedback, solution focused, and trauma focused cognitive behavioral therapy, and play therapy. Nutrition is incorporated with all clients to help heal the whole person and treat secondary issues that result from trauma. I also work with children and families on the Autism Spectrum. I am fluent in ASL.

Tamara (Tami) Masters, MSW, LCSW

***YC, C & A**

720-306-1798

With over 20 years of experience, Tami brings deep compassion and care to the work she does. She's walked alongside many individuals on their healing journeys, supporting them through challenges like trauma, anxiety, depression, and relationship struggles. What drives her most is helping people heal from trauma and reconnect with themselves in meaningful ways.

Andrea TeBeet, MA, LPC

***YC, C & A**

719-602-0925

Andrea has over 10 years of experience working with individuals and families who are in need of a caring and skilled clinician who can help provide support, empathy and sensitivity while navigating through trauma and difficult situations. She is a deeply conscientious therapist who consistently prioritizes the well-being of her clients. She builds strong, trusting relationships with the children she works with, fostering a sense of safety and connection from the start. Andrea recognizes the importance of collaboration and actively engages with other professionals involved in each case to ensure a holistic and coordinated approach to care.

Waking Life Counseling, LLC
80 Garden Center, Suite 368
Broomfield, CO 80020
303-253-2342
Katie-Beth@wakinglifecounseling.com

The focus of my practice is to provide evidenced-based creative interventions that best support trauma recovery for children, adolescents and families as well as young adults. Additionally, I work with parents and caregivers of children who have been impacted by ruptures in their attachment relationships or who are working through trauma recovery. I enjoy working alongside parents and caregivers to support them in better understanding their child's emotional world and how to best strengthen the parent/child relationship and family unit. I utilize evidenced based play therapy interventions, sand tray interventions and specifically, parent-child interventions for children ages 6 years and younger. I have pursued extensive training in trauma treatment, early childhood mental health, child development, attachment and parent-child interventions because I feel it is essential to understand the complexities that come with supporting young children and their families through trauma recovery given the intersection of brain development, attachment relationships and trauma. I am a Licensed Professional Counselor (LPC), Registered Play Therapist – Supervisor (RPT-S); I'm endorsed as an Early Childhood Mental Health Specialist (ECMH-E), National Certified Counselor (NCC) as well as a registered Circle of Security Parent (COS-P) group facilitator.

expertise and specialized training in treating trauma and victimization. I have been in practice for twenty years and have spent a majority of that time focusing on clients who have experienced physical or sexual abuse or been exposed to other forms of violence. I work hard to make a strong connection with each client entering my office, and provide them the safe and secure environment they need to heal. Individual therapy provides a unique experience in which people can spend a concentrated amount of time on themselves and their needs. When this time is granted, clients can overcome challenges, resolve pain, and achieve the personal growth they are seeking. My practice works with young children, school aged children, adolescents and adults, including non-offending parents. I use a variety of treatment modalities including CBT, play therapy, solution focused therapy and have had enormous success utilizing EMDR with trauma victims. When working with children or younger adolescents, I often incorporate family therapy as a way for the family to heal together. With every client/family, I design a treatment plan and approach that is individualized. Children receiving treatment here can adopt a "therapy buddy", a special beanie baby that will help them remember what is being taught in therapy and being worked on at home.

For several years I have treated children of all ages, specializing in child victims of trauma, included but not limited to child sexual abuse, physical child abuse, and witness to domestic violence ranging from a single event to several exposures over the child's physical and emotional development. I utilize experiential therapies such as Yoga and Play Therapy to address the various and complex needs of children who have been exposed to traumatic events. Additionally, I am certified in Child-Parent Psychotherapy which is an evidence-based practice for children and their parents who have experienced at least one form of trauma (e.g., maltreatment, the sudden or traumatic death of someone close, a serious accident, sexual abuse, exposure to domestic violence) and are presenting with difficult problems as a result. The primary goal is to support and strengthen the relationship between a child and his or her parent (or caregiver) in order to repair the child's sense of safety, attachment, and ultimately improve the child's overall cognitive, behavioral, and emotional functioning.

Reaching HOPE es una organización sin fines de lucro 501(c)(3) que brinda terapia de trauma centrada en la familia a través de terapia **de juego y conversación para niños de 2 años en adelante, adolescentes y sus cuidadores protectores y no ofensivos**. Nuestra misión es ayudar a las personas a recuperarse del trauma proporcionando un enfoque holístico y de sistemas familiares a los servicios de salud mental que abordan la curación individual, relacional y sistémica, fortaleciendo en última instancia la salud de las comunidades para las generaciones futuras. Sabemos que el abuso puede ser tan difícil para un cuidador como para el niño, y creemos que los niños se curan mejor cuando se involucran y apoyan a cuidadores no agresores.

El personal clínico incluye psicólogos autorizados a nivel de doctorado y estudiantes de doctorado que han completado una maestría y están cursando activamente un doctorado. Todo el personal clínico de Reaching HOPE recibe supervisión de psicólogos licenciados que tienen capacitación especializada en terapia cognitivo-conductual centrada en el trauma (TF-CBT), conducta sexual problemática (PSB) en niños, círculo de seguridad, procedimiento Crowell de interacción entre padres e hijos, capacitación en el DC-0-5 y Terapia de interacción entre padres e hijos (PCIT). También ofrecemos servicios de administración de casos a cualquier persona que sea víctima de un delito, independientemente de su participación en los servicios terapéuticos de Reaching HOPE. Los servicios de terapia y gestión de casos se ofrecen tanto en **inglés como en español**.

QUESTIONS TO ASK WHEN CHOOSING A THERAPIST

Your choice of a mental health therapist/counselor is very important to your wellbeing. Interview a potential therapist in the same way any employer would interview a prospective employee. S/he will be working for, as well as with you, and competent, caring therapists will not be offended by your questions, and will be honest with you. You are the customer. Do not hesitate to ask hard questions and do expect complete answers. After all, your mental health and recovery from the trauma of the crime is at stake.

Following is a list of questions to ask that will help you choose the appropriate therapist:

- What experience, training and education do you have pertaining to working with victims of crime?
- Have you worked with victims who have experienced the same type of crime I have experienced?
- How long have you done this kind of counseling?
- What treatment services do you offer (i.e. individual, group, etc.)?
- Are you licensed, or are you under the supervision of a licensed therapist? (This is required by the Crime Victim Compensation Board)
- Do you understand the criminal justice system, and do you have experience in testifying in court if necessary?
- What is my responsibility in therapy/counseling as a client?
- Do you offer in-person and/or virtual appointments?
- What is your availability so I can find something to fit with our schedule? (Days, nights, weekends)
- How long might I expect to be in counseling for these types of problems/issues?
- Will you accept the fee structure set by the Judicial District Crime Victim Compensation Board (in the judicial district in which I applied)?
- How does payment work while we are waiting to hear if the Crime Victim Compensation (CVC) application was approved?
- If I do not qualify OR get approved for CVC, do you accept other types of insurance? Or have a sliding scale fee?

PREGUNTAS QUE PUEDE HACER DURANTE EL PROCESO DE ESCOGER UN TERAPEUTA

Su decisión de elegir un consejero/ terapeuta de salud mental es importante para su bienestar. Entreviste a su terapeuta de la misma manera que usted entrevistaría a un futuro empleador. Él/ella trabajara para y con usted. Los terapeutas competentes y bondadosos no se ofenderán por sus preguntas y serán honestos con usted. Usted es el cliente. No dude hacer preguntas difíciles y espere que le den respuestas completas. Su salud mental y la recuperación del trauma están en juego.

Aquí esta una lista de preguntas para escoger al terapeuta apropiado:

- ¿Qué experiencia, entrenamiento y educación pertinente tiene usted para trabajar con víctimas de crimen?
- ¿Ha usted trabajado con víctimas que han experimentado el mismo tipo de crimen que yo?
- ¿Cuánto tiempo ha trabajado usted en este tipo de consejería?
- ¿Qué servicios de tratamiento ofrece usted? (Ejemplos: individual, grupo, etc.)
- ¿Usted esta licenciado/a, o trabaja bajo la supervisión de un terapeuta licenciado? (Este es un requisito de compensación a víctimas de crimen.)
- ¿Tiene usted entendimiento del sistema de justicia criminal, y tiene experiencia testificando en corte si es necesario?
- ¿Qué es mi responsabilidad en terapia/consejería como su cliente?
- ¿ Ofrecen terapias en persona y/o virtuales?
- ¿Cuál es su disponibilidad para que pueda encontrar algo que se ajuste a nuestro horario? (Días, noches, fines de semana)
- ¿Por cuánto tiempo cree que yo debería de estar en consejería, por este tipo de problemas?
- ¿Usted aceptara la estructura de pagos establecida por el comité del distrito judicial de compensación a víctimas de crimen? (en el distrito judicial en el que aplique)
- ¿Como funciona el pago mientras esperamos saber si se ha aprobado la solicitud de Compensación Para Victima de Crimen (CVC)?
- ¿Si no cumpla los requisitos O no me aprueban para CVC, aceptan otros tipos de aseguranzas? ¿O tienen tarifas ajustadas?
